

ISOLIMPIA® LR

ISOLIMPIA® LR is a thermally insulating material and a sound absorber made of 100% polyester fiber thermobonded (Polyethylene terephthalate - Co-Polymer Polyethylene terephthalate).

The characteristic of thermobonding is the complete recyclability of the product and of its clippings; for this reason it can be considered to all effects 100% recyclable.

ISOLIMPIA® LR is designed for the 'insulation of high speed railway rolling stock.

The characteristic of thermobonding is the complete recyclability of the product and of its clippings: **ISOLIMPIA® LR** is 100% recyclable. On this feature we focus more and more also because the increasing interest in ecological purposes reduces the cost of disposing clippings.

Not less important is the fact that **ISOLIMPIA® LR** does not disperse fibers, powders, particles or fibrils potentially harmful for humans into environment.
